DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1, 3-6, 11, 12, and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Duchesne '234 in view of Belmonte '033. Duchesne discloses the claimed invention except for the belt comprising a first side, a second side, and a center member having an elastic portion. Belmonte teaches that it is known to provide a dive belt with a first side 14, a second side 16, and a central portion (read as portions 11, 12, and 18) having an elastic portion 11, 12 as set forth at columns 2-3, lines 60-33. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a belt having a first side, second side, and central portion including an elastic portion, as taught by Belmonte in order to allow for secure fit to a diver.

Allowable Subject Matter

- 3. Claims 7, 8, and 19-21 are allowed.
- 4. Claims 9, 10, and 14-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
